1. Charging

Connect the keyboard
to the charging device
with a supplied USB cable.
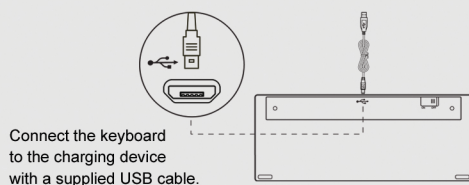

2. Connecting the receiver to the computer

Connect the receiver to a USB port in the computer – the device
will automatically install the drivers. Set the power on/off switch
on the reverse side of the keyboard to turn it on.

Touchpad		Mouse
Swipe		Cursor move
Single finger tap		Left click
Two-finger tap		Right click
Three-finger tap		Middle click

5. Restoring the keyboard to default settings

To restore the keyboard to default settings press and hold
ESC+K keys and connect the receiver to a USB port.

Proper disposal of the product

This symbol appearing on the product, on the
product accessories or documentation means that
when the product durability is over, neither the
product nor its accessories (such as USB cable)
should be disposed as household waste. By
proper disposal of and recycling the product you
can prevent possible negative impact on the envi-
ronment and human health.
